PROFILE

I am a certified tester with experience in web/desktop/mobile testing. I have experience in creating test documentation, as well as working in various tools that help ensure product quality. I can apply the relevant types of testing in practice, including test design techniques. I am a confident PC user, have an understanding of client-server architecture, basic knowledge of databases and computer networking. Responsible, punctual, focused on results.

SKILLS

- Web/Mobile/Desktop testing
- Applying different types of testing on practice
- Knowledge and using of test design techiqes
- Basic knowledge of HTML and CSS
- Developing of testing documentation
- Knowledge of SDLC, STLC, Bug life cycle
- Waterfall and Agile concepts knowledge (Scrum, Kanban)
- Experience with Oracle VirtualBox
- Experience with SQL
- Experience with CLI of Windows\Linux
- Understanding of client-server architecture
- Strong knowledge of testing theory
- Experience with Jira, TestRail, Git/GitHub, devTools
- Basic experience with JMeter, Fiddler, Postman, Android Studio
- Understanding approaches to working with requirements

EXPERIENCE

Web testing:

Projects - Testing Tools, Amazon, Forbes, Rozetka, Ukr.net, Youtube, Globalives, BERN, YouCart, Lumos, Okwine, Stellarium, Demoblaze, UserTesting, Energy Telecom

- Creation and support of test documentation (checklists, test cases, bug reports, test plan, RTM)
- Development of test cases using test design techniques
- Development of project decomposition in TestRail
- Development and execution of test runs of test cases in TestRail
- Creating bug reports in Jira
- Installation of Jira and TestRail integration
- Participation in Sprint Planning, Daily Scrum, Sprint Review, Sprint Retrospective meetings
- L10n & i18n testing
- UI\UX testing
- Using devTools for testing
- Ad-Hoc & Exploratory testing
- Smoke\Sanity\Retest\Regression testing
- Cross-browser testing

Mobile testing:

Projects - Evernote, IMDb

- Creation and support of test documentation (checklists, test cases, bug reports, test plan, RTM)
- Development of test cases using test design techniques
- Development and execution of test runs of test cases in TestRail
- Creating bug reports in Jira
- Installation of Jira and TestRail integration
- Participation in Sprint Planning, Daily Scrum, Sprint Review, Sprint Retrospective meetings
- Interruption testing
- UI\UX testing
- Cross-platform testing
- Ad-Hoc & Exploratory testing
- Testing applications in different screen positions
- Install\Uninstall testing

Desktop testing:

Projects - Catch me if you can (DEMO), Supermarket Mania Journey

- Creation and support of test documentation (checklists, test cases, bug reports, test plan, RTM)
- Development of test cases using test design techniques
- Development and execution of test runs of test cases in TestRail
- Creating bug reports in Jira
- Installation of Jira and TestRail integration
- Participation in Sprint Planning, Daily Scrum, Sprint Review, Sprint Retrospective meetings
- UI\UX testing
- Ad-Hoc & Exploratory testing
- Testing applications at different screen resolutions
- Install\Uninstall testing
